Service Bulletin: SB-21

Original Date: October 5, 2011

**SUBJECT: MARVEL-SCHEBLER® AIRCRAFT
CARBURETORS**

1. **Applicability:** Marvel-Schebler® carburetors produced for Aero Accessories, Inc.
2. **Reasons:** For information purposes; Marvel-Schebler Aircraft Carburetors, LLC (MSA), formerly known as Volarè Carburetors, LLC located in Gibsonville, N.C., produces the above-referenced carburetors under a direct-ship authority for Aero in accordance using historic, proprietary Marvel-Schebler® carburetor design data. Because MSA is the direct source of these carburetors, MSA's maintenance manuals, service bulletins and other maintenance data are the correct and appropriate data to reference when servicing these carburetors as that data is for all other carburetors produced by MSA. Carburetors produced by MSA under Aero Accessories, Inc's (Aero) FAA-PMA authorization include Marvel-Schebler® models: MA-3A™, MA-3PA™, MA-3SPA™, MA-4SPA™, MA-4-5™, MA-4-5AA™, MA-6AA™, and HA-6™. In addition to producing such carburetors for Aero, MSA produces them for TC holders as it has in the past.

MSA data may be obtained directly from MSA (Telephone: 336-446-0002, or see www.msacarbs.com).

Borg-Warner (Marvel-Schebler), Facet Aerospace, Zenith, Precision Airmotive Corporation, LLC, are MSA's legitimate predecessors-in-interest. Carburetors produced by each of these predecessors-in-interest carry MSA's historic trademark model designations. Do not use MSA's (and/or its predecessor's) service manuals, service bulletins, or other maintenance data to service any carburetor not produced by MSA or its predecessors.

See MSA SB-19 for further information regards use of MSA's service publications.

3. **Compliance:** Use appropriate service information when servicing MSA Carburetors.
